STANDARDIZED TESTING INFORMATION for BERKSHIRE FIFTH FORMERS

All fifth formers will take the ACT and the SAT at Berkshire on April 9th and May 7th, respectively.

In January, we held an evening session with each college counselor assisting fifth formers in registering for the April 9th ACT and the May 7th SAT. Many students, therefore, have already registered for both tests. For those who were unable to attend, they will work with their college counselor to complete both registrations before they leave for March vacation. Parents, however, should follow up to ensure that your son or daughter is registered for both tests.

Going forward, each student/family is responsible for registering for the ACT, SAT, and/or SAT Subject Tests beginning next October at Berkshire. All sixth formers typically take the ACT and SAT in October and must register during the summer to ensure they have a place at Berkshire's test center. Please carefully review the registration deadlines included below.

Students who have been approved for testing accommodations, such as extended time, need to confirm their test registrations with Kristina Splawn or Dory Driscoll. The ACT requires that a printed registration form be included with the first test registration with an accommodation.

Each college counselor will advise whether a fifth former should take specific SAT Subject Tests on June 4th. As Berkshire is not in session at this time, these tests must be taken at a convenient test site near home. SAT Subject Tests in U.S. History, Chemistry, Math Level 1, Math Level 2, and/or Foreign Languages for example, may be recommended for certain students when appropriate. Additional SAT Subject Tests can be taken at Berkshire during the fall testing dates.

Standardized Testing Schedule for Fifth Formers:
