Calculator Requirement:
All math courses taught at Berkshire School require the use of graphing calculators. Students will need a graphing calculator for both in-class assignments and homework. Students that are unable to provide their own graphing calculator may ask their teacher about checking out a calculator.

Required for all incoming students for all math courses: TI-Nspire

	Accepted on SAT	*Accepted on ACT*	*Accepted on AP*
TI-Nspire CX	*YES*	*YES*	*YES*
TI-Nspire CX CAS	*YES*	***NO***	*YES*
TI-Nspire CX II	*YES*	*YES*	*YES*
*TI-Nspire CX II CAS***	*YES*	***NO***	*YES*

*** = Available for purchase at the Bookstore*

The functionality and appearance of these four calculators are roughly all the same. We do want to bring to your attention that CAS versions are not permitted on the ACT. Should the ACT be in your future, we suggest you purchase a TI-Nspire without CAS. All four of these calculators are used at Berkshire School. *When purchasing, please retain the student software license number that comes in the package as this is the only way to access the free software without having to purchase a separate license.*

For questions, please contact Interim Mathematics Department Chair Michael Bjurlin at mbjurlin@berkshireschool.org. Please click here to see what skills/concepts students should review over the summer for their upcoming math class.
